Apollo

by Glaval Bus

Up to 45 Passenger Seating

When universities, municipalities, airports, shuttle and transit operators are looking for high quality, durability and superior handling, the front engine transit style Apollo is the obvious choice. Built on the MB65 Freightliner chassis, it has a Cummins 6.7L ISB diesel engine and Allison Transmission. Drivers will appreciate the improved accessibility from the passenger area to the driver's seat.

The Apollo can seat up to 45 passengers including the driver and co-pilot. Optional ADA-compliant equipment makes it perfect for specialized transit routes. The Apollo delivers value-added transportation at a great price!

Unit shown with optional features
